## DYNAJET 500me-30 HELI 400V/50Hz

## 1518050

Welcome to the compact "me" class, with an especially high flow rate! In contrast to its smaller colleague, DYNAJET 500me, the more powerful DYNAJET 500me 30, offering a working pressure of up to 500 bar ( $7,250 \mathrm{PSI}$ ), achieves a flow rate of $30 \mathrm{l} / \mathrm{min}$ or $7.94 \mathrm{USgal} / \mathrm{min}(1,800$ $\mathrm{l} / \mathrm{h}$ ) for particularly demanding tasks. Of course, in addition to its performance, the DYNAJET 500 me 30 convinces above all with its compact dimensions and high level of mobility.

## Structure

- Robust, powder-coated steel frame for optimum machine protection and a long service life
- Screws made of corrosion-free material for high durability
- Splash-resistant (IP54) electricals box for versatile and problem-free deployment
- Operating-hours counter for optimum product costing analyses

## Drive

- Automatic star/delta starter to protect the power supply
- Compact and robust industrial electric motor for a long service life with maximum operating times
- Belt drive for quiet operation and extended maintenance intervals
- Motor safety-switch for emergencies

## Water supply

- Suction pressure control to protect the pump in the case of a weak water supply
- Washable stainless steel water-filter insert for maximum service life of pump and Unloader
- Industrial crankshaft pump with ceramic triplex plunger
- Thermo safety valve for additional protection of the pump
- Integrated frost protection switch to prevent the pump from being damaged by frost
- Safety valve for additional safety during operation
- Large-sized bypass hose to prevent pressure peaks and temperature increases
- Manual pressure adjustment for easy operation

Water Jetting Systems up to 3,000 bar

| Base data |  |
| :---: | :---: |
| System | Cold-water high-pressure cleaners |
| Type | Trolley/Box |
| Pressure |  |
| Pressure class | 500 bar (7,250 PSI) |
| Pressure variable | Yes |
| Minimal pressure | 250 bar (3,635 PSI) |
| Hydraulics |  |
| Minimum flow rate | $7 \mathrm{l} / \mathrm{min}(1.85$ USgal/min) |
| Maximum flow rate | $30 \mathrm{I} / \mathrm{min}$ ( $7.94 \mathrm{USgal} / \mathrm{min}$ ) |
| Pump revolution speed | Max. 1450 rpm |
| Hydraulic power | 28 kW (38 Hp) |
| Pump | Ceramic triplex plunger |
| Volume water tank | 20 ( 5.29 USgal) |
| Threaded connection |  |
| Input port | GEKA |
| Output port | M $24 \times 1.5 \mathrm{ET}$ |
| Drive |  |
| Drive type | Electric motor |
| Motor power | 30 kW ( 41 Hp ) |
| Motor speed | Max. 1450 rpm |
| Motor type | Electric motor, IP54 |
| Voltage and frequency | 400 V three-phase current, 50 Hz |
| Power transmission from motor to pump | Belts |
| Others |  |
| Chassis | 4 wheels |
| Weight in kg | 420.0 |

Dimensions (L/W/H)
Medium
$116 \times 80 \times 110 \mathrm{~cm}$
Clear water, up to $40^{\circ} \mathrm{C}\left(104{ }^{\circ} \mathrm{F}\right)$, min. 1.8 bar (26 PSI) to max.
6 bar ( 90 PSI ) supply pressure

## Scope of delivery

## Standard equipment

lifting eye, operating-hours meter, socket for plug 63A CEE, automatic star-delta and motor safety switch, level sensor to protect the machine from running dry, suction gauge, crankshaft pump, high-pressure gauge, Automatic pressure regulation with bypass function for infinitely variable pressure adjustment with automatic hose pressure drop down system, stainless-steel water filter, supply-pressure and water temperature-monitoring, safety valve, operating manual

## Standard accessories

10 m high-pressure hose for hot/cold-water, high-pressure cleaning gun with extension pipe (total length approx. 800 mm ), nozzle carrier and $15^{\circ}$ flat-jet nozzle

Optional equipment at extra cost
